### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claim 15 is rejected under 35 U.S.C. 103(a) as being unpatentable over JP 2003334149 in view of JP 2002165729.

The JP 2003334149 reference discloses a disposable liquid-absorbent matting in proximity to the toilet base, wherein the liquid-absorbent matting absorbs liquid spills and exhibits a perceptible indication in response to absorption of liquid spills.

Although JP 2003334149 reference does not disclose a footprint indicia located on either side of the matting for instructing a user to stand on the footprint during use of the toilet, attention is directed to the JP 2002165729 reference which teaches an absorbent mat comprising footprint indicia on either side of the mat during use of the toilet.

Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to provide footprint indicia on the JP 2003334149 mat in view of the teaching of JP 2002165729 for instructing a user to stand on the footprint during use of the toilet.

The method for training a toddler to urinate into the toilet would be inherently performed during the normal use of the modified matting device as described above.

***Response to Arguments***

3. Applicant's arguments on 05/03/06 with respect to claim 15 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***
